

The Kenya Chamber of Mines would like to urge all citizens to actively participate in the upcoming public hearing meetings scheduled to take place across various counties to discuss the two crucial bills:

- **The Gold Processing Bill (National Assembly Bill No. 46 of 2023)**
- **The Mining (Amendment) Bill (National Assembly Bill No. 51 of 2023).**

We encourage everyone to share their views and opinions through our various communication channels through members@kenyachamberofmines.com and cc info@kenyachamberofmines.com before the **6th of May**.

Collective input from stakeholders can influence the final outcome of these bills and ensure that they align with the interests of our people and our nation. Let's come together as a community and actively participate in shaping the future of our mining industry.
